

## A Set of Online Assessment Resources:

### 1. Rubistar

Go to <http://4teachers.org/> and, under "4Teachers Family of Tools," click on "Rubistar."

**Description:** Want to make exemplary rubrics in a short amount of time? Try RubiStar.

Registered users can save and edit rubrics online. You can create a printable rubric, starting from and editing templates in several curricular areas.

**Pros:** This is a great way to get a start on a fully developed rubric without having to fully develop the rubric.

**Cons:** Their templates do not cover all of the content areas.

### 2. PBL Checklists

Go to <http://4teachers.org/> and, under "4Teachers Family of Tools," click on "PBL Checklists."

**Description:**                      **Pros:**                      **Cons:**

### 3. Washington State School Report Card

<http://reportcard.ospi.k12.wa.us/>

**Description:** This is where you go for Washington State Assessment (mostly HSPE / MSP) information. You can get information for the whole state, for any district in the state, or for a particular school in a district. You can also compare the test scores and a variety of demographic information for up to three schools at a time.

**Pros:** There is a huge amount of information here -well presented and very colorful. This is a good place to go to research the demographics and test performance of particular schools.

**Cons:** It takes a little while to get used to the way this site works and to, as it were, "plumb the depths" of this immense and potentially gushing well of information.
